

Conflict Management Training Opportunity using the Conflict Dynamic Profile (CDP)

Target Audience:

Those in a leadership role and/or those aspiring to be successful in a leadership role.

There will be discussions regarding effective ways to deal with conflict.

The CDP will assist participants in identifying weak areas in their ability to deal with conflict in the workplace and assist them in creating an action plan to minimize their weaknesses and maximize their strengths.

It will also assist participants to identify the hot buttons they have and how to deal with them in an effective manner in the future when someone hits one of the hot buttons.
